## A.G. Organica & The Next Decade

---

At AG Organica, a prominent player in the realm of essential oil, carrier oil, and cosmetics manufacturing, we are unwaveringly dedicated to our partnerships, viewing them as the cornerstone that sets us apart in a competitive landscape. As an Original Brand Manufacturer (OBM), Original Design Manufacturer (ODM), and Original Equipment Manufacturer (OEM) in the cosmetics industry, AG Organica strives to contribute to the creation of a beautiful world through cutting-edge formulations and a commitment to innovation.

Our scientific minds are diligently focused on pushing boundaries and challenging the status quo, ensuring that our products stand out in unimaginable ways. We take pride in maintaining a competitive edge by expanding our innovation library, fostering significant growth in both our company and culture. Encouraging our team to embrace innovation and forward-thinking, we continuously enhance our research and development processes, driving efficiency and reducing development costs and lead times for our clients.

In light of the escalating challenge of Global Warming, AG Organica recognizes the imperative of reducing carbon footprint and adopting sustainable practices in custom product manufacturing. Aligned with market trends, we are dedicated to a systematic approach aimed at achieving continual improvement in organic products. Our ultimate vision is to operate as an environmentally efficient manufacturer, recognizing the vital role sustainability plays in the current business landscape.

"Exercising adaptive leadership is about giving meaning to your life beyond your ambition." This philosophy guides us as we navigate challenges, evident in the milestones achieved amidst the COVID crisis. Notably, we expanded into protective products, showcasing our adaptability and resilience. Grounded in the principles of Character and Faith, our records attest to our unwavering commitment to growth, even in turbulent times.

AG Organica is not merely a cosmetics manufacturer; we are a partner in making dreams a reality. Our mission revolves around creating beauty in the world, ensuring that the voices of our clients and teams across the globe are heard and understood. We excel in Custom Formulation, Contract Manufacturing, Private Label, White Labeling, Wholesale Supply and Distribution, Third-Party Manufacturing, and Packaging Material solutions, reinforcing our position as an industry leader committed to excellence and sustainability.

# R&D Centre Highlights

Our R&D intelligence management system helps us to efficiently manage our product life cycle, lower product risks, and improve product quality. We increase business quick responsiveness and competitiveness in the market by scientifically enhancing our R&D management.

## 1. State-of-the-Art Facilities

Equipped with advanced technology and modern laboratories for essential oil and cosmetic product development.

## 2. Innovation Hub

Focuses on creating new formulations and improving existing products.

## 3. Quality Assurance

Ensures high standards through rigorous testing and quality control.

## 4. Sustainability Focus

Develops eco-friendly and sustainable product solutions.

## 5. Expert Team

Skilled Employees

## 6. Client-Centric Approach

Customizes products based on client needs and market trends.

## 7. Regulatory Compliance

Adheres to global standards and regulatory requirements.

## 8. Continuous Improvement

Regularly updates processes to enhance efficiency and product quality.

## 9. Global Reach

Supports international clients with comprehensive R&D services

## 10. Training Programs

Provides ongoing training to staff to stay updated with industry advancements.
